

SecurityMetrics

PCI DSS Onsite Assessment

Whether it's to secure your sensitive data, comply with PCI requirements, or comply with merchant processor mandates, SecurityMetrics doesn't just assess your situation; they help you achieve a strong and lasting security posture.

SecurityMetrics Qualified Security Assessors (QSA) are accurate, experienced, easy to work with, responsive to your needs, and provide comprehensive PCI DSS assessments. Clients enjoy working with SecurityMetrics QSAs so much that over 90% of customers return the following year.

Trusted PCI Compliance Partner

As your trusted PCI compliance partner, SecurityMetrics takes the time to understand your environment and needs, and then helps you scope your compliance efforts to the levels appropriate for your organization and situation. SecurityMetrics helps you avoid pitfalls that lead to compromised security, credit card fraud, regulatory fines, and loss of business. In addition to assessing your level of compliance, SecurityMetrics advises you on how to better simplify, streamline, and secure your processes, enabling you to achieve compliance in a way that ultimately saves you money and improves your business operations.

SecurityMetrics partners with you before, during, and after your assessment, working with you to quickly identify and resolve threats that could impact your business. By taking advantage of SecurityMetrics PCI Onsite Assessments you can:

- **Minimize the impact of PCI requirements** through scope reduction and proper network segmentation
- **Enjoy peace of mind** that your sensitive data is secure

- **Avoid the costs and headaches** of non-compliance fines and penalties
- **Improve business efficiency and reduce operational costs** by streamlining, securing and simplifying your day-to-day payment card operations

A Higher Standard for PCI Qualified Security Assessors

SecurityMetrics differentiates itself from other QSAs by conducting PCI assessments that benefit you through:

- A commitment to take the time to understand your operations and processes, enabling SecurityMetrics to accurately scope the cost and effort of the assessment
- Trusted leadership and experience as a full-service PCI compliance partner
- Establishment of long-term customer relationships through performance, value, and integrity rather than mandatory long-term contracts
- Simple, straightforward pricing with no hidden charges or add-on fees
- An online audit management tool that helps you track PCI milestones, designate responsibilities, and view the status of your PCI assessment.
- Assurance that when you have questions or support issues you can talk to a live person, not an answering machine or email queue

Full Service PCI Consulting and Assessment

SecurityMetrics completes your assessment with quality results you can trust and with minimal impact on your day-to-day business. The SecurityMetrics PCI Onsite Assessment team provides you the following services:

1. **Custom Price Quote** – Instead of paying an average onsite assessment price, SecurityMetrics personalizes each quote to maximize your service and minimize your cost.
2. **Pre-Onsite Consulting** – Conducts initial assessment review and gap analysis, pre-assessment consulting on network design, security policy review, and onsite visit preparation.
3. **Onsite Assessment** – Meets with your full team of business and technical professionals to gather accurate information to satisfy all PCI DSS requirements. Ensures efficient controls are put into place as needed to reduce current and future PCI compliance overhead
4. **Post-Onsite Summary Report** – Provides quick, initial feedback on compliance status and remediation needs.
5. **Remediation Work**– Works with the customer to remediate any items not in compliance.
6. **PCI Report Preparation and Submission**– Documents compliance to PCI requirements, provides you with the Report on Compliance (ROC) for review, and then submits compliance status to card brands or acquiring bank.

Simplifying PCI Compliance

To simplify your PCI compliance efforts, when you engage SecurityMetrics for your PCI Onsite Assessment, you'll also benefit from the following:

- **Full-Service Vendor** – With expertise in PCI assessments, forensic incident response, vulnerability scanning, penetration testing, card data discovery, security appliances, PA-DSS application security assessments, training, and consulting; SecurityMetrics is one of only a few companies that hold credentials for all aspects of PCI.

SecurityMetrics helps you avoid pitfalls that lead to compromised security, credit card fraud, regulatory fines, and loss of business.

- **Open and Ongoing Relationship** – Whenever compliance questions or worries arise, SecurityMetrics' PCI compliance professionals will work with you to address your concerns.
- **Accurate and Understandable Results** – SecurityMetrics gives you the facts on every aspect of your PCI assessment through an easy-to-understand online reporting console.
- **Single Point of Contact** – To keep communication lines open and eliminate confusion, SecurityMetrics assigns a single point of contact for each assessment.
- **Fair, No-Surprise Pricing** – SecurityMetrics strives to offer simple and straightforward pricing with a single bid that won't change.
- **No Long-Term Contracts** – SecurityMetrics never locks you into a long-term contract.
- **Unlimited Rescans** – Since achieving PCI compliance is an iterative process, SecurityMetrics includes unlimited scanning during the assessment and remediation process.

About SecurityMetrics

SecurityMetrics is a global leader in merchant data security and compliance for all business sizes and merchant levels, and has helped over 1 million organizations manage PCI DSS compliance and/or secure their network infrastructure, data communication, and other information assets. As an Approved Scanning Vendor (ASV), Qualified Security Assessor (QSA), Payment Application Qualified Security Assessor (PA-QSA), Penetration Tester, and Payment Card Industry Forensic Investigator (PFI), SecurityMetrics has the tools available to help businesses achieve lasting security and validate accurate PCI compliance.
